Chai Ming Studios: Icon Collection

Each piece presents a true collaboration between designer, craftsman and client, with an unwavering devotion to materials, process and artistry. We offer refined, bespoke furniture pieces inspired by the international community, extraordinarily executed by hand using traditional methods.

We embrace juxtapositions and the unexpected, celebrating textures and finishes while honoring classic designs.

We intend this compilation to provide a starting point for designers so that we can work together to create design solutions for any project. We are committed to establishing exchanges that further designers' visions, extending our approach and sharing our experience. We value relationships, whether with a customer or a supplier in our broad network. We honor the smallest detail and the elegant whole—to us, they are equally essential.
